Marie,

Can you scan this email to file M/49/0001?

Thank you,  
April

Subject: Keigley Quarry final requests

To: "Hinkins, Bryson (Staker & Parson)" <Bryson.Hinkins@stakerparson.com>

Bryson,

I tried to call you a few weeks ago regarding the plan submittal, but I didn't hear back from you. I need two more items checked and then submitted to me before I can finalize the plan.

1. Lynn is asking for a plan to protect the stockpiled topsoil in section 106.6. The rule requires a plan to protect and redeposit topsoil. Generally operators add some language to section 106.6 stating that the topsoil stockpiles will be seeded with a protective berm around them. Some companies put signs up labeling the piles as topsoil so that nobody mistakes it for overburden.

2. For the bond, the total \$ amounts on demo and removal spreadsheets are not agreeing with what is on the excel spreadsheets for demo and removal. Can you double check those and resubmit the spreadsheets and the summary sheet if necessary?

You can send me this information electronically. Once everything is correct, I will add it to the plan and we can approve this and move on.

April
